

## Retain your independence with Acorn Stairlifts

It is a simple truth that staying in your own home gives you a wonderful feeling of independence. The freedom to move around easily and without fuss makes all the difference. So, why let getting up and down your stairs stop you from having a fully independent lifestyle?

With a tailor-made Acorn Stairlift you can stay in your home, and continue to enjoy your independence.

Many medical conditions **affect** your mobility, and a **stairlift** can help overcome your **difficulty**, making life that much easier.

## Regain the freedom of your home

Feel safe on your stairs with an Acorn Stairlift, and enjoy the full use of your home once again.

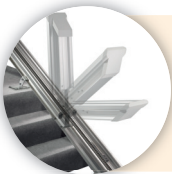

## Our Stairlifts

All of Acorn's stairlifts have been independently tested and certified to comply with the newest Canadian safety standard for stairlifts.

Our industry-leading innovations have helped win a string of awards, including the prestigious Ease-of-Use commendation from the Arthritis Foundation.

**Consider some of these additional options when planning your Acorn Stairlift:**

### Hinged Rail

Allows you to manually lower the bottom of the rail of a straight stairlift to avoid any obstruction at the end of the lift.

### Curved Power Hinge

Automatically lowers when the lift travels towards the hinge.

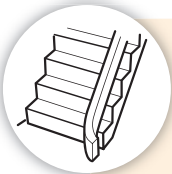

### Drop Nose

Allows the rail to finish in considerably less distance than standard by inclining the rail by up to 58 degrees over the bottom step.

### 90 or 180 Park

The 90 or 180 park allows the lift to be parked off the stairs, freeing walkways and the main flight of stairs.

### Teardrop

Shorter version of 90 degree park for when you have to allow space for walkway or door.

## Acorn 180 Curved Stairlift

<b>Weight Limit:</b>	264 lbs
